### Urgent | Rafah Municipality's Emergency Committee:

Faced with a heart-breaking reality that places the lives of over 2.3 million innocent people in the Gaza Strip in grave danger, we send out an urgent plea to the global community, its compassionate humanitarian organizations, and relief entities. It is a moment of dire necessity to act swiftly, to halt this grievous affront to humanity, this multi-faceted collective tragedy of unprecedented proportions. As the specter of mass casualties and destruction looms, we urge you all to rally to provide the innocent civilians in Gaza with all the vital necessities for life, ensuring that they are not left at the mercy of the tools of destruction employed by the occupation forces.

Dr. Ahmad Al-Sofi  
Mayor of Rafah Municipality
