

Dear Partners,

In the spirit of Christmas, our hearts are heavy with the reality in Gaza: 19,400 lives, with 70% being children and women, lost in the face of unimaginable genocide.

We cannot ignore the profound injustices in Gaza. The Israeli occupation, in violation of international laws, has inflicted immense suffering—from horrifying crimes to deliberate targeting of essential facilities, leading to starvation, displacement, and severe shortages.

This Christmas, may our reflections stimulate not only empathy but also a shared commitment to justice, peace, and a future where the message of love wins over despair.

Let us heed the timeless message of Jesus— a call to compassion, empathy, and healing.

In solidarity,
